

Official Withdrawal from the University

On receipt of this form in the Office of the Registrar, the student will be withdrawn from all current classes and from the University. To resume a degree program, the student must re-apply for admission to the University. To take further classes without resuming a degree or certificate program, the student must complete an *Application for Non-Degree Enrollment Status*.

IMPORTANT NOTE – PLEASE READ: Withdrawal from the University does not cancel all tuition and fees. Students are responsible for all funds owed to the University. Failure to pay balances owed will prevent future enrollment and block release of official transcripts. Contact the Business Office after withdrawing to determine your final account balance.

Students Receiving Financial Aid: Contact your Financial Aid Counselor before withdrawing.

International Students: Contact the International Student Advisor before withdrawing.

All Students: *Withdrawing from the University is a serious decision: you are encouraged to consult with your academic advisor to explore alternatives.*
